D Press **Print** to automatically download a document containing the QR code.

E The Parent/Sponsor opens the KinderSmart app on the phone, taps **Scan** and either scans the QR code from the computer screen or scans it from a print out of the QR code. To scan, move the QR code into the view of the phone's camera so that it can be seen on the phone screen. As soon as the whole QR code is visible to the phone camera, the phone scans the QR automatically.

F After a successful scan, the app will be registered to the Parent/Sponsor who receives confirmation that the phone was successfully registered.
